## Professional Experience

---

### REDspace

Bedford, Nova Scotia

October 2012 to October 2014

### Web Developer

REDspace is an Emmy Award winning development agency with clients from IBM to MTV, Sony to Showtime. They have developed websites for the National Film Board in association with Commander Chris Hadfield and application for 2013 MTV Video Music Awards called “MTV GIF it!”

- > Developed web sites using the Drupal 7 or WordPress content management systems.
- > Created Drupal themes based on mock up provided by web designers.
- > Implemented Drupal 7 modules as well as some module customization.
- > Hand coded several HTML and PHP web sites for IBM.
- > Created a Drupal 7 responsive website based on mock ups and wire frames for the Government of Nova Scotia's gambling addiction initiative called “Take 5”. The site allowed users to take quizzes about their gambling habits and at the end they were emailed a plan to help. Used several Drupal 7 modules, PHP, jQuery, AJAX, Bootstrap and third party scripts.
- > Provided user interface and experience elements for a WordPress website in association with Commander Chris Hadfield and the National Film Board (<http://spaceschool.nfb.ca/>).
- > Hand coded several PHP, HTML5 based websites for IBM's human resources department to properly train their new managers. Created graphical elements for tools based on IBM's current brand. Some sites used the Dojo scripting language.
- > Used GIT for version control.

**Technologies used:** Bootstrap, PHP, CSS3, HTML5, Drupal 7, LESS, SASS, jQuery, Dojo

## **Revolve Branding**

Bedford, Nova Scotia

July 2010 to May 2012

### **Senior Web Developer**

Revolve is one of the leading advertising agencies in Nova Scotia working with clients like the City of Halifax, TimbrMart, Source For Sports and Atlantic Lottery.

- > Worked closely with the design and account teams to develop several sites using Drupal 7.
- > Created themes based on wireframes and mock ups using CSS3 and HTML5.
- > Ensured sites were cross browser compatible.
- > Worked with the QA team to ensure sites worked properly.
- > Part of the team that developed a website for Source For Sports in Drupal 7. The site allowed store owners across the Canada to manage their inventory and determine what content they wanted to show on their store's site.
- > Developed Revolve's corporate website based on a custom content management system using HTML5, CSS3 and PHP.

**Technologies used:** CSS3, HTML5, Drupal 7, PHP, jQuery

## **Lawtons Drugs**

Dartmouth, Nova Scotia

February 2010 to July 2010

### **Web Developer (contract)**

Lawtons Drugs is a large Nova Scotia based pharmacy owned by the Maritime's largest grocery store chain Sobeys.

- > Developed an application in Perl to benefit management system for drug plans.
- > Managed content for Lawtons' public facing website developed with Drupal 6.

**Technologies used:** CSS3, HTML, Drupal 6, PHP, Perl

## **à la Carde Design**

Dartmouth, NS

February 2000 to present

### **Owner/Web developer/Web designer**

à la Carde Design is small one man development and design studio. Clients range from non-profit groups and associations to oceanography research companies to real estate agents. Designed and developed websites as well as designed several logos and marketing material for various clients.

- > Designed and hand coded several websites based on mockups and wireframes using PHP, HTML and CSS
- > Created a custom CMS used by several real estate agents to manage their properties using PHP, MySQL, HTML and CSS.
- > Designed and developed a website for the Massage Therapists' Association of Nova Scotia that included a custom CMS to allow them to manage members' information, events and continuing education credits using PHP, MySQL, HTML and CSS.
- > Designed and developed a custom CMS for my Toastmaster's club that allowed members to keep track of their progress, plan meetings, schedule speeches and keep track of statistics.
- > Developed and themed websites using Drupal 7.

**Technologies used:** CSS3, CSS, HTML, HTML5, PHP, MySQL, Drupal 7, jQuery
